Bottom row: CLAUDI CASANOVAS, BERNARD DEJONGHE, LUCIE RIE, SHOZO MICHIKAWA

Galerie Besson is delighted to announce that it will take part in COLLECT for the first time this year. The light and spacious Saatchi Galleries will form the perfect backdrop to present some of the best international ceramics that the gallery has to offer.

We plan to show an exciting group of work, most of which will be especially commissioned for the fair from contemporary makers. We will also present a few very special examples of work by twentieth century makers LUCIE RIE and HANS COPER.

New works will be available by BERNARD DEJONGHE, CLAUDI CASANOVAS, GWYN HANSSEN PIGOTT, JENNIFER LEE and SHOZO MICHIKAWA. We are also very lucky to be able to present some works from the estate of the late potter JACQUELINE LERAT (1920-2009).

Further information about all the above artists is available on request from the gallery. We look forward to discussing the work with you in greater detail.
