3013 Contemporary Art is a vision grown out of passion and knowledge for the finer things in life. Not just a gallery but a bespoke service where your requirements and personality are matched to the perfect piece.

Paintings and sculpture are original like the people who purchase them. It is emotional and we believe that often art chooses its owner. The decision to purchase can be difficult, almost overwhelming on your own. At 3013 Contemporary Art we make the whole process enjoyable and stress free. We are dedicated to getting to know you and finding special pieces to reflect your personality, style or corporate identity.

We are delighted to announce our Summer Exhibition 18 June - 2 July showcasing the talents of six different artists each with a unique style and voice.
