---

Chelsea Framers Gallery

14th May – 18 June

## An Exhibition Celebrating London: It's River and Bridges, and the All Embracing Sea

Chelsea Framers Gallery is in the heart of Central London and, inspired by it's location, exhibits many local scenes by established, local artists. This exhibition, Sea and River Studies, embraces London's relationship with the Thames whilst looking further afield at our fascination with the sea and our country's beautiful coastline.

On display are oil paintings and prints by both established and emerging artists, including Adebajji Alade, Natalia Avdeeva, Lesley Dabson, John Dobbs, David Pilgrim, Louise Diggle and Margaret Knott, etc.
