## Big London Tour - Atelier Art Gallery makes a debut in London

**3** PLACES **3** GREAT EXHIBITIONS **12** ARTISTS **150** SELECTED ARTWORKS

### FIRST TIME IN TOWN – FIRST TIME IN THE WORLD

The newly established Atelier Art Gallery presents a stunning exhibition series and art fair with the works of 12 established Hungarian artists. Their works can be found in private and public collections all over the world, but this is the first time their works can be seen in one exhibition.

The exhibition will appear in three different galleries in London, each time providing for a new atmosphere. The collection includes paintings, photographs, sculptures, pottery and carved wooden figures, and the exhibited artworks offer a wide-ranging experience not only of Hungarian art, but also of the secrets of human existence, with an emphasis on their timeless quality.

## THE EXHIBITION

### Inner universes (contemporary painting)

*András BERKES, András GYÖRFI and Attila ORBÁN* have completely different ways of seeing, each of them working with their own techniques. Their paintings transmit feelings of their own, yet they do become related in each of their works by revealing their innermost worlds and making them visible to everyone in vibrant colours, fine lines and dashing forms.

### Masters of raku (art pottery, ceramics)

*Miklós BERCSÉNYI, János MIKLÓS, Klára KÓS, Éva KUN, Anna SCHÉFFER, Sándor SOMOGYI and Mónika ZÁDORI* present a wide variety of modern ceramics art alluding to ancient and medieval styles. Many of these works are raku-fired, which is probably the most spectacular firing technology, originating in ancient Japanese culture.

## VillageCity (photography)

*Lehel FUCHS* shows us the similarity and the diversity of village and city. In his photographs he matches landscapes and buildings formed either by nature or humans. But his works are not just documentations; they make us think about our way of living and reflect our wishes and alternatives. The choice is ours.

Mention must be made of *Sándor PÉCSI*'s carved wooden creatures, carrying native power and incarnating his nation's legends and beliefs.

The artists invite everyone to a journey to the land of ancient traditions, to the labyrinth of spirit and beauty,

**back to nature,**

**back to what is human,**

**back to art.**
