## **New Art by New English Art Club**

This year's New English Art Club annual exhibition boasts over 400 paintings, prints and drawings by some of the country's finest contemporary figurative artists.

Held at the Mall Galleries, London, the exhibition features everything from landscapes and seascapes, to still life and portraiture. Even better still, with Christmas just around the corner, all works are for sale at prices to suit every pocket.

Founded in 1885, the New English Art Club has been widely recognised for well over a century as a centre of excellence for painting and drawing.
