

La Galleria Pall Mall has the pleasure of inviting you to a very special private view for the opening of the Exhibition "Butterfly Mind" by Jonathan Topor on Tuesday 1 March 2011 at 6pm.

Jonathan Topor- is now 11 years old, he was diagnosed with Autism when he was 18 months and attended a small Speech Therapy School in an Israeli Center until he was 7. Today Jonathan has integrated himself in the Israeli General State Junior School.

Jonathan has an exceptional Visual talent, he expresses himself through Design and 3D images, his paintings feature cityscapes with geometrical lines and excellent perspective. Recently he has learned to integrate digital colouring for the backgrounds of his drawings.

Although only 11 years old, the Artist already has his own unique style of expression, recognisable and collectable.

Jonathan has been exhibited in his country of birth Israel, several times in galleries and in one museum, in 2010 the Israeli National TV channel, aired a documentary on this talented young artist. Despite or possibly due his Autism Jonathan's ability as an artist continues to flourish.

Jonathan's first UK Exhibition will be open to the public from 10.30 on the 28th February- 11 March 2011 at the Pall Mall Gallery and for the first time Jonathan's artworks will be available for purchase.

The proceeds of the sale of one of Jonathan's original artworks will be donated to the National Autistic Society.
