In 1995 I started my own design studio, mainly concentrating on stain-glass paintings, murals and oil / acrylic paintings. In U.K. - In late 1999 I relocated to the UK. Since then I have concentrated on acrylic paintings. Inspiration for these paintings has been the beautiful English landscapes, the symmetrical architectural style and the seasonal change of hues all around me. But nostalgia about the past has made me continue with traditional Indian themes as well. In the UK, I started with displaying my work at the Barber Art Gallery in Woking, Carré d'artistes in London & Forest Art Gallery in Guildford have been my regular clients since then.

SWAPNEEL KADAM - Sculptor

In the modern world we gather more and more information and only gathering information is not the real thing. Fact is that we don't have time to think and learn out of it. As an artist I learn that there are many negative effects on our society because of just gathering the informations and not thinking over it. I choose the same thought for my sculptures.

NATASCHA SNELL - Painting

I love coastlines especially those of Cornwall the quality of light, and the textures carved out in the rocks by nature's elements, the carpets of texture of heathers and gorse, combined with the colours of the ocean, lots of texture and colour, I trained in textiles and colour and texture plays a big role in my work, I love being immersed in nature and looking into the space of the horizon I feel a great sense of completeness. We all feel connected in certain places and Cornwall does that for me. I have done a lot of painting of Sardinia Coastline, and inland Spain Andalucía as I have lived and taught in international school there.
